BPW special tools and measuring devices

General

BPW special tools and measuring devices

Special tools and measuring devices have a long tradition at BPW Bergische Achsen KG and are based on decades of experience.

The existing range of tools has been systematically improved with each new generation of axles and expanded by new products.

For the maintenance and repair of its ECO Disc TS2/TSB disc brake, BPW offers a new **tool case (BPW code no. 99.00.000.9.72)** that keeps all the tools that may be required to hand.

In addition, BPW offers special measuring devices for checking dimensions on axles and suspensions (toe-in, toe-out etc.).

Version

Tools must prove their worth in hard, everyday use. Only then does it become clear whether tools are up to the demands of the real world.

Use of high-quality materials

Top quality materials are the key to high quality tools. Continuous quality assurance guarantees consistent quality.

Favourable cost-performance ratio

Quality is not always obvious at first glance (e.g. materials).

Buying quality tools is often the better-value solution in the long run. This is the case especially whenever tools are required on a regular basis and trouble-free use has to be ensured at all times.

Long-life, low wear

BPW tools are designed to be particularly resistant to wear and tear, and guarantee an extremely long service life, even with frequent use.

Easy to handle

The best solutions are always the simplest ones. And this is especially the case when it comes to tools.

This is the reason why BPW tools are geared specifically to meet technical requirements.

Solutions that do not meet practical requirements are rigorously weeded out at the development stage.

Details on the correct use of the tools can be found in the respective workshop manuals.

- ◎ The special tools guarantee that all recommended service work on the BPW ECO Disc (TS2 3709/4309 as well as TSB 3709/4309/4312) can be performed safely and with ease.
- ◎ All work on the vehicle is only allowed to be performed by employees of the commercial vehicle industry and the commercial vehicle trade who have the appropriate technical proficiency. Always follow the safety instructions issued by the vehicle manufacturer.
- ◎ Observe the BPW workshop manual (www.bpw.de).

3 Tools for ECO Disc disc brakes

General

BPW special tools and measuring devices

Special tools and measuring devices have a long tradition at BPW Bergische Achsen KG and are based on decades of experience.

The existing range of tools has been systematically improved with each new generation of axles and expanded by new products.

For the maintenance and repair of its ECO Disc TS2/TSB disc brake, BPW offers a new **tool case (BPW code no. 99.00.000.9.72)** that keeps all the tools that may be required to hand.

For an existing TSB tool case, BPW offers a **supplemental set (BPW code no. 09.801.08.82.0)** which contains all additional tools for the TS2.

In addition, BPW offers special measuring devices for checking dimensions on axles and suspensions (toe-in, toe-out etc.).

- ⦿ The special tools guarantee that all recommended service work on the BPW ECO Disc (TS2 3709/4309 as well as TSB 3709/4309/4312) can be performed safely and with ease.
- ⦿ All work on the vehicle is only allowed to be performed by employees of the commercial vehicle industry and the commercial vehicle trade who have the appropriate technical proficiency. Always follow the safety instructions issued by the vehicle manufacturer.
- ⦿ Observe the BPW workshop manual (www.bpw.de).

Tools for ECO Disc disc brakes 3

Contents of the tool case 3.1

No.	Designation	TSB	TS2	BPW code no.	Dimension	Page
T1	Threaded spindle	●	●	02.0130.39.10	Tr 20 x 2 / SW 22	22
T2	Ball bearing	●	●	02.0130.40.10	Ø 20.5/40 x 14.5	22
T3	Sleeve	●	●	02.1410.26.00	Ø 20.2/42 x 75.5	22
T4	Extractor tool for moveable and fixed bearings	●	●	02.0130.41.10	Ø 20.5/40.1 x 71	22
T5	Pressing tool for moveable bearing	●		02.0130.42.10	Ø 20.5/45.8 x 48	22
T6	Nut	●	●	02.5270.37.00	Tr 20 x 2 / SW 32	22
T7/T20	Retractable plate	●	●	02.1421.25.00	Ø 20.2/53 x 13	22
T8	Pressing tool for fixed bearing	●	●	02.0130.43.10	Ø 20.5/45.8 x 90	22
T9	Press tool (plastic bellows)	●		02.0130.45.10	Ø 26.1/50 x 60	23
T10	Torx spanner reset	●	●	02.0130.44.10	TX 25	23
T11	Two-hole spanner for coarse dirt seal	●	●	02.3516.20.00		23
T12	Adapter for moveable bearing bolt	●	●	02.0130.46.10	SW 14 / SW 24	23
T13	Adapter for sealing plug	●	●	02.0130.47.10	SW 14 / SW 12	23
T14	Adapter for torque wrench (moveable bearing)	●	●	02.0130.48.10	SW 14	23
T15	Adapter for torque wrench (sealing cap)	●	●	02.0130.49.10	SW 14	23
T16	Ring for inserting wheel studs	●	●	02.5683.92.00	Ø 23/46 x 15	23
T17	Tool for fixed bearing bolt	●	●	02.0130.64.10	SW 14 / SW 14	23
T18	Tool for moveable bearing bolt	●	●	02.0130.65.10	SW 14 / SW 14	23
T19	Assembly tool for bellows	●		02.0130.80.10	Ø 27.6/62 x 32	23
T21	Pressing tool for moveable bearing		●	02.0130.72.20	Ø 20.5/45.8 x 50	22
T22	Piston for bellow pressing tool		●	02.0130.74.20	Ø 83 / M 20 x 2	24
T23	Screw for bellow pressing tool		●	02.0130.73.20	M 14 x 2	24
T24	Spacer for bellow pressing tool		●	02.4319.42.00	SW 24 / M 20 x 2 / M 14 x 2	24

SW = Spanner width

3 Tools for disc brakes ECO Disc

3.2 BPW special tools at work

BPW special tools at work		
Item / BPW code no. / name / dimension		
T1 02.0130.39.10 Threaded spindle TR 20 x 2 / SW 22		Extractor tool for moveable bearings, consisting of item T1, T2, T3, T4, T6 
T2 02.0130.40.10 Ball bearing Ø 20.5/40 x 14.5		
T3 02.1410.26.00 Sleeve Ø 20.2/42 x 75.5		Pressing tool for movable bearing, consisting of item T1, T2, T3, T4, T5, T6, T7/T20 (TSB) T1, T2, T3, T4, T21 , T6, T7/T20 (TS2) 
T4 02.0130.41.10 Extractor tool for moveable and fixed bearings Ø 20.5/40.1 x 71		
T5 (only for TSB) 02.0130.42.10 Pressing tool for moveable bearing Ø 20.5/45.8 x 48		Extractor tool for fixed bearing, consisting of item T1, T2, T3, T4, T6 
T21 (only for TS2) 02.0130.72.20 Pressing tool for moveable bearing Ø 20.5/45.8 x 50		
T6 02.5270.37.00 Nut TR 20 x 2 / SW 32		Pressing tool for fixed bearing, consisting of item T1, T2, T6, T7/T20, T8 
T7/T20 02.1421.25.00 Reaction plate Ø 20.2/53 x 13		
T8 02.0130.43.10 Press tool (fixed bearing) Ø 20.5/45.8 x 90		

Tools for disc brakes ECO Disc 3

BPW special tools at work 3.2

BPW supplemental set TS2 – 09.801.08.82.0

Item	BPW code nr.:	Designation	Dimension
T7/T20	02.1421.25.00	Reaction plate	Ø 20.2/53 x 13
T21	02.0130.72.20	Pressing tool for moveable bearing	Ø 20.5/45.8 x 50
T22	02.0130.74.20	Piston for bellow pressing tool	Ø 83 / M 20 x 2
T23	02.0130.73.20	Screw for bellow pressing tool	M 14 x 2
T24	02.4319.42.00	Spacer for bellow pressing tool	SW 24 / M 20 x 2 / M 14 x 2

4 Tools for air suspensions/mechanical suspensions

4.1 Assembly tool for rubber-steel bushes

Manual removal and assembly

Pulling in/out rubber-steel bushes		
For manual assembly and removal of rubber-steel bushes belonging to connecting rods* (VB suspensions), U-stabilizers and square beam stabilizers 		
	Removal	 Assembly
Assembly tool for rubber-steel bushes		
Assembly tool	for Ø rubber-steel bush*	BPW code no.
	Ø 50–60 mm	14.825.11744

* not for bush connecting rod VB ECO CARGO.

Tools for air suspensions/mechanical suspensions4

Assembly tool for rubber-steel bushes4.2

Assembly with a press

For pressing-in of rubber-steel bushes

For pressing-in rubber-steel bushes with a press

Assembly tool for rubber-steel bushes

Assembly tool	for Ø rubber-steel bush	BPW code no.
	Ø 50 mm	15.001.19433
	Ø 52.6 mm	15.002.19433
	Ø 60 mm	15.003.19433
	Ø 66 mm	15.004.19433
	Ø 85 mm	15.005.19433
	Ø 89.6 mm	15.008.19433
	Ø 100 mm	15.006.19433

4 Tools for air suspensions/mechanical suspensions

4.3 Assembly tool for steel-rubber-steel bushes

For removal and assembly with a press

For pressing in/out of steel-rubber-steel bushes		
For assembly and disassembly of steel-rubber-steel bushes in trailing arms with a press		
		
Assembly tool for steel-rubber-steel bushes		
Assembly tool	for Ø steel-rubber- steel bush	BPW code no.
	Ø 24	03.084.37.11.0
	Ø 30	03.084.37.10.0

Tools for air suspensions/mechanical suspensions

4

Assembly tool for rubber-steel bushes

4.4

ECO Air/ECO Air Compact, for manual removal and assembly

Pulling in/out rubber-steel bushes		
For manual assembly and removal of rubber-steel bushes on the trailing arm for ECO Air/ECO Air COMPACT running gear systems		
	Removal	
Assembly tool for rubber-steel bushes with ECO Air/ECO Air Compact		
Assembly tool	for Ø rubber-steel bush	BPW code no.
	Ø 24 / 132	99.00.000.9.69

5 Calibration equipment

5.1 Calibration tubes and threaded adapters

For aligning axles and suspensions

Calibration tubes and threaded adapters for alignment of axles and suspensions.

The threaded adapters can also be used as a hub pulling device in combination with the puller screw.

Threaded adapters

Threaded adapter	for axle type	Thread (D)	BPW code no.:
	H.. / K.. / N.. Conv. 6.5–9t	M 115 x 2	15.013.01609
	H.. / K.. / N.. Conv. 10–12t	M 125 x 2	15.014.01609
	H.. / K.. / N.. ECO 6.5–9t	M 125 x 2	15.020.01609
	EH.. 10–12t	M 125 x 3	16.011.01609
	H.. / K.. / N.. ECO 10–12t (old)	M 135 x 2	15.021.01609
	H.. / K.. / N.. ECO Plus 3		
	ECO ^{Plus} 8–12t / ECO 10t (new)	M 136 x 2.5	15.023.01609
	H.. / K.. / N.. Conv. 13–14t	M 135 x 3	15.012.01609

Calibration tubes

Calibration tube	Version	Thread	L	BPW code no.:
	A	2 x M 30 x 1.5	620	15.001.01609
	B	1 x M 30 x 1.5	620	15.005.01609

Puller screw

Puller screw	Thread	BPW code no.:
	M 30 x 1.5	16.031.01609

Notes

BPW is a globally leading manufacturer of intelligent running gear systems for trailers and semi-trailers. As an international mobility and system partner, we offer a wide range of solutions for the transport industry from a single source, from axle to suspension and brake to user-friendly telematics applications.

We thereby ensure outstanding transparency in loading and transport processes and facilitate efficient fleet management. Today, the well-established brand represents an international corporation with a wide product and service portfolio for the commercial vehicle industry. Offering running gear systems, telematics, lighting systems, composite solutions and trailer superstructures, BPW is the right system partner for automotive manufacturers.

BPW, the owner-operated company, consistently pursues one target: To always give you exactly the solution which will pay off. To this end, we focus our attention on uncompromising quality for high reliability and service life, weight and time-saving concepts for low operating and maintenance costs as well as personal customer service and a close-knit service network for quick and direct support. You can be sure that with your international mobility partner BPW, you always use the most efficient method.

Your partner on the way to economic viability!
